For: AN IMPROVED MEANS FOR TREATMENT OF THE GASES OF
COMBUSTION ENGINES AND THE TRANSMISSION OF THEIR POWER

AMENDMENT

Honorable Commissioner of
Patents and Trademarks
Washington, D.C. 20231

Sir:

In response to the Official Action mailed September 30,
1996, the period for response having been extended for three
months by the attached Petition for Extension and fee, applicant
submits the following amendments and arguments.

IN THE CLAIMS:

Please cancel claims 21-39 without prejudice or
disclaimer.

Please add claims 40-54 as follows:

FIGS 355-359
PP 171-173 -- 40. A device for the working of fluids, said device
comprising a chamber assembly having a chamber, head and a
component reciprocally movable within said chamber, said head and
component defining a variable working volume therebetween, said
component having an internal passage for passage of fluids to or
from said working volume, said working volume being separated
from and pierced by said passage. --

FIGS 355-359
PP 171-173 -- 41. The device of claim 40, wherein said component
defines a port communicating with said passage and said working
volume during only a portion of the reciprocation cycle of said
component. --
